

# MONOSCOPE PRO

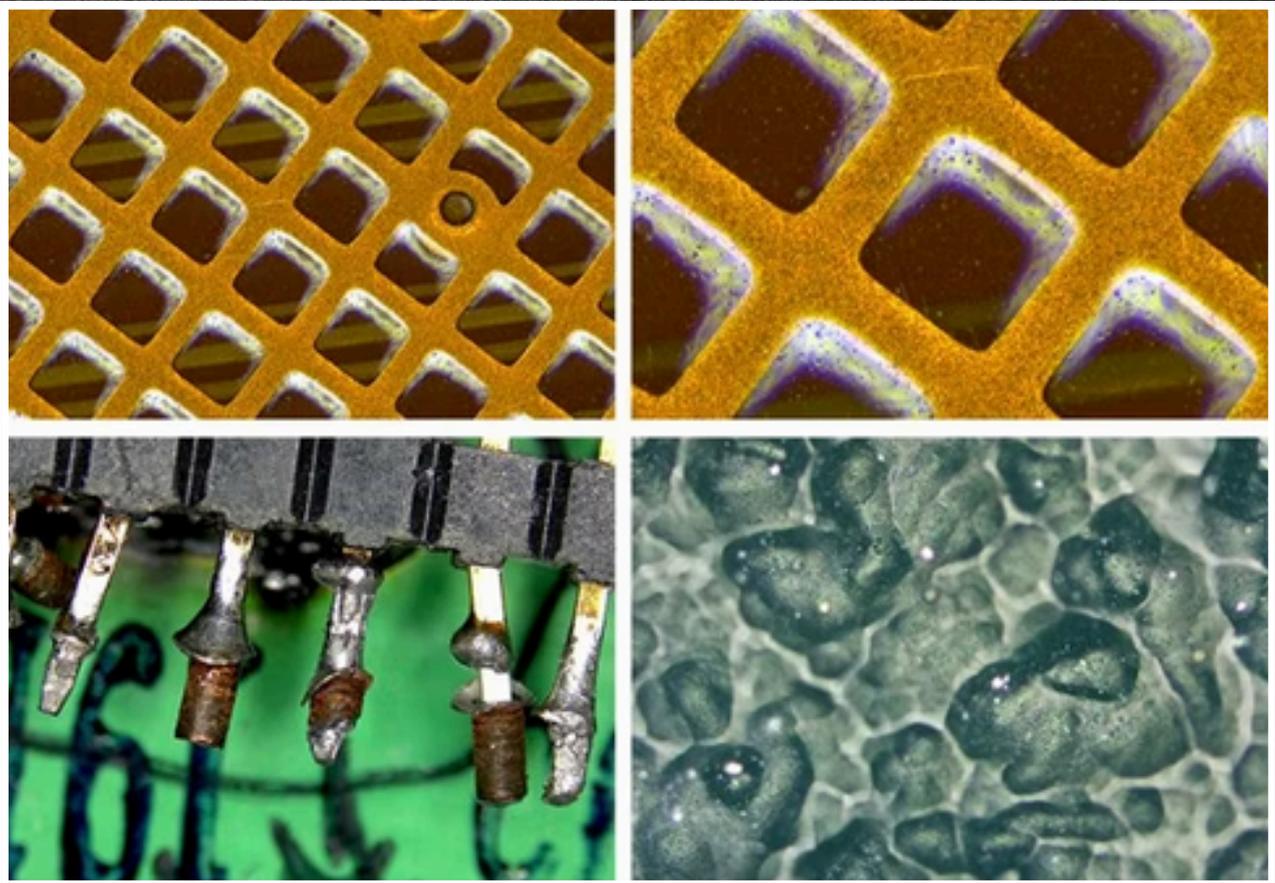

## PRODUCT DESCRIPTION

Full HD adopts the new HDMI high-definition digital transmission mode and is equipped with matching software. It has photo, video, and measurement functions. It can export reports to facilitate the retention of inspection reports. The microscope is directly connected to the monitor.

The digital microscope is a high-tech product successfully developed by perfectly combining cutting-edge optical microscope technology, advanced photoelectric conversion technology, and LCD screen technology. As a result, we can reproduce the research on the microscopic field from traditional ordinary binocular observation to the monitor, thereby improving work efficiency and reducing fatigue.
